Readership: 56,420

### Viper 13

The Viper 13 backpack has 13 liters of capacity with a three liter reservoir. It incorporates a streamlined feature set that is a more simplified “reservoir to pack” interface than the current Osprey Manta and Raptor series. It features internal pump sleeves, a tool pouch and side compression straps, as well as a front stretch-woven pocket, a large front zippered pocket, a shove-it pocket and a top zippered slash pocket. It is available in Supernova, Electric Sky and Thunder Cloud colors. The retail price is \$94.

### Hornet

The hornet is an ultra light-weight pack with a design stripped down to the essentials. It features hydration compatibility, a ventilated and supportive Bio-Stretch harness with an etro sliding adjustable sternum strap, a spacer mesh ventilated backpanel with a removable foam pad, a Bio-Stretch hipbelt with zippered pockets and an ErgoPull closure, 7mm webbing side compression and side mesh pockets with InsideOut compression straps. The Hornet is available in 24L, 36L and 42L capacities weighing from 1 lb. 2 oz. to 1 lb. 8 oz. It comes in a Crimson color in S/M and M/L sizes. The retail price is \$139.
