Osprey Special Edition Verve 10

Featuring: Verve 10

URL: <http://tinyurl.com/45andf6>

Purple is not what most people associate with Breast Cancer, but that is exactly the color that Osprey Packs hopes to use to raise at least \$5000 for the Breast Cancer Fund.

The special edition Verve 10 is amethyst with a front pocket screen of the iconic Breast Cancer Fund prayer flags that carry messages of love and healing and help to support breast cancer prevention. As with all Osprey packs, the Verve 10 is free of BPA, PVC/phthalates and triclosan.

"We are committed to the Breast Cancer Fund and their vital work in making the world a healthier and safer place for everyone," said Gareth Martins, marketing director of Osprey. "This season, we are proud to show our continued support of this important organization through these special edition packs designed specifically for women."

Verve 10 Women's Bag Details

MSRP: \$84

BioStretch™ harness

"Spacer mesh" backpanel for support and ventilation. * I can vouch for this as I use an Osprey Pack and it works!
