Featuring: The Verve 7

Monthly Traffic: 242,400

URL: <http://tinyurl.com/422focf>

This women's specific pack features smart designs for female cyclists, including a harness curved to fit a woman's body, a sternum strap that won't squish your chest, and an extremely roomy profile. It's also packed with more pockets than a pair of cargo shorts. The rear panel pocket opens gapingly wide to store tubes, tools, extra layers and maybe a Subway sandwich. There's a handy harness pocket for your Gu. A top, fabric-lined pocket holds your iPod and shades. Other smart features include a lidlock to hold your helmet; a loop for a blinky light, and a magnetic bite valve "clip" on the chest strap for easy access and to keep the hose in place and out of the way. Available in Lava or Seasquall, it's pretty too.

OSPREY
Verve 7
