Osprey

Viper and Verve 4

The Viper 4 (men's) and Verve 4 (women's) are technical hydration packs that utilize Osprey's patented Hydralock system and 2 L Hydraform reservoir to eliminate barreling and reduce slosh. For trail running, the 4 L packs incorporate streamlined feature sets and simplified reservoir-to-pack interfaces. The Men's Viper 4 is available in Thunder Cloud, Electric Sky and Supernova colors. The women's Verve 4 is available in Seasquall and Lava. Both retail for \$64.
